

EMAIL & LIFECYCLE

From 0 to 10K Beta Users: A Launch Email Sequence

CLIENT: DEVKIT.IO INDUSTRY: DEVELOPER TOOLS

A 7-email launch sequence that helped a developer-tool startup fill its beta waitlist and drive 10,000 signups in 30 days.

Designed and wrote a complete pre-launch email sequence including a teaser, founder story, social proof roundup, early access invite, urgency notice, onboarding guide, and referral ask. Each email was A/B tested for subject lines and CTAs. The sequence achieved a 38% open rate, 12% click-through rate, and a 22% referral conversion — helping the startup exceed its beta signup goal by 40%.
